a performance of "Othello" by the "Astor Place Com-pany of Colored Tragedians" was hardly as large as the oddness of the occasion would seem to have warranted. What was lacking in numbers, however, was made up in appliance. Every one received a round at each entrance and each exit, while lago could hardly deliver his lines after the first act, so uproartously was the estisfaction with his efforts expressed. Othello was the duskiest of the company with the solitary exception of Emilia. He was also the most meritorious, though his laurels were filehed by lago. Benjamin J. He could not open his mouth without an encouraring yell from the antience, among whom, by the way, there were but a few colored people. Mr. Arneaux seems to have formed his didax of instruction art from some nightmare creation companied for the Historious Mr. Kean and a particularly agile marienette. NO COMPETITION IN GREENE COUNTY. HAINES'S FALLS, N. Y., July 28.—In view of the fact that The New-York Herald claims great credit for early arrival at Saratoga, it may be interesting to state that the only New-York paper in this northernmost section of the Catskill Mountains last Sunday was the regular edition of THE SUN DAY THIBUNE. That paper arrives so early every Sunday now, and with so little effort, that the attempt to compete with it has been abandoned. thoughtfully." The editorial quotes from a statement by one of the Directors, in which he says:

It was never intended that either Blaine er Cl-vesand should open the exposition, and they are not invited to do so. They are simply to be present as guessa. There certainly can be no sarm in that I think the whole trouble comes from a misunderstanding on the part of the people, and I am surprised to find Mr. Watterson laboring under the same misuake. I think its card is wholly uncalled for. It has been upbill work to bring the Exposition to absolute of success, and I think President Young and THE TERRUNE'S come up on a very fast special

about 8 o'clock. There are a great many New-Yorkers in the mountains every Sunday now. There is an arrangement whereby they can leave New-York at 3:30 p. m. by the Central Road, and, crossing at Catskill, take be the train to Paieuville and reach the Mountain House and the Kaaterskill by 9 p. m. Returning they can leave at 8 o'clock Sunday night, and reach New-York at 6 a. m. Monday. This convenient a rrangement is predicting its natural results. The Train Ne has so large a constituency in the mountains now, that if all the visitors could vote, and the election was held next week, Greene County would surely go Republican. Perhaps this Democratic stronghold will be carried anyhow this year.

REFEREES DISAGREE

NO DECISION IN THE BUREY-CLEARY FIGHT, Fifteen hundred "sporting" men, two referees, a time-houser, four seconds and Captain Clinchy were unable just night to decide definitely whether Michael-Cleary, of New York, or John Backe, of England, got the best of the four round glove fight under the Marquis of Queensberry rules which took place last night at Irving Hall. of the two men, but Cleary is the heavier. When time
was called the men sparred cactionsly to the intense

for Cleary's head but fell short twice.

The men warmed up to their work in the next round,
and the fighting was brisker. The crowd choosed as
Burks, who is remarkably light on his feet, and has a
tremendous reach, got in a stinger on Cleary's ness and
got away before his slower antagonist could counter.
In the third round Burks had everything his own way,
and hit Cleary half a dozen times without a return. In
the last round Cleary succeeded in getting home some
leavy body blows, which satemished Burks and caused
Cleary's friends to yell, "Kneek him out, Mike."
When the three minutes were up Burks was as fresh as
a daisy. The men took their seats and their accounts
vigorously wiped them slown.
